

MISSION & VISION

Criterion 6 – Governance, Leadership & Management

MISSION

Our mission is to create medical professional with self-discipline, strength and moral responsibility.

The professionals we create will have height degree of integrity, expertise and sense of purpose that would make them capable of meeting challenges of advanced future technologies and skillful health for the society

VISION

The institute is being developed as a center of excellence in health education and research in consideration of advances in health care systems and the role of Health professionals in these systems.

Emphasis would be given to both curricular and extracurricular activities contributing to overall development of students.
